

# Le Montmartre

LONDON | PARIS | SYDNEY

## Covid19 Safety measures

Health and safety are our top priorities for all our customers and staff. Our management team would like to reassure you that we are implementing all precautionary measures to closely monitor the Coronavirus (COVID-19) outbreak.

### About hygiene, safety practices & deliveries:

- All our staff temperature is checked every morning when starting their shift, and employees with higher temperature will be asked to get back home and self-isolate.
- All staff is required to wear masks all day long and to dispose them every 4 hours. They are also holding a bottle of hand sanitizer during all deliveries, to make sure they clean their hands on a regular basis.
- All staff are required to wear gloves when handling the food boxes at the client place.
- Our strict implementation of hygiene habits have been reinforced in the kitchen and in our office.
- All staff staying home with potential symptoms of Covid19 will be tested before getting back to work. All tests will be carried by a London private clinic and cost will be paid by Le Montmartre.

### About Customers and "Lunch 2 desk" service:

All usual catering orders can be packaged individually when asked by the client. In parallel, we have launched our new "lunch2desk.com" service so all your staff can order their individual lunch and refrain leaving the office at lunch time.
